

WEB TECHNOLOGY WITH UI UX

ASSIGNMENT 1 – TASK 1

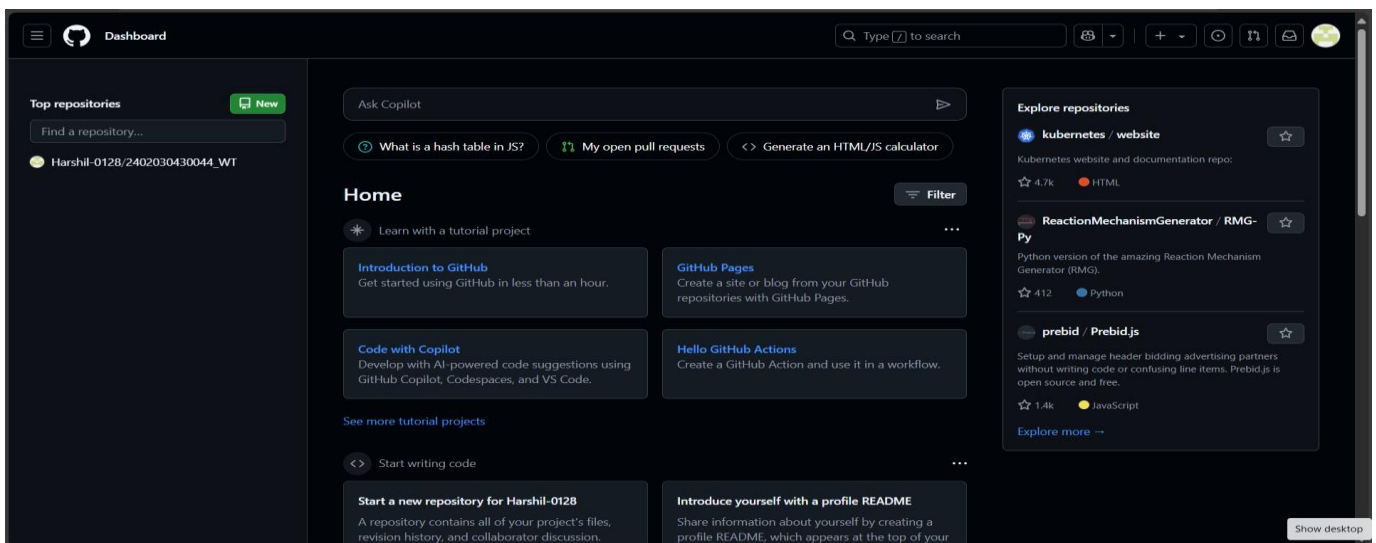

NAME: HARSHIL THAKUR

ROLLNO: 04

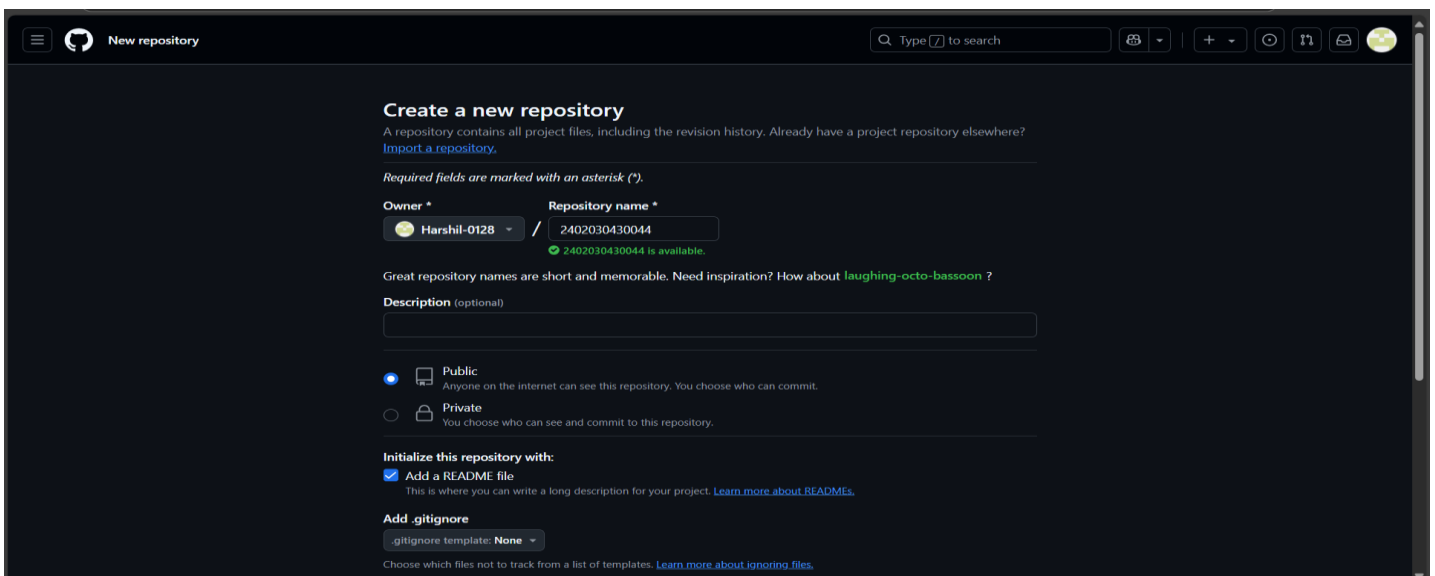

CLASS: 4CEC

BRANCH: CE

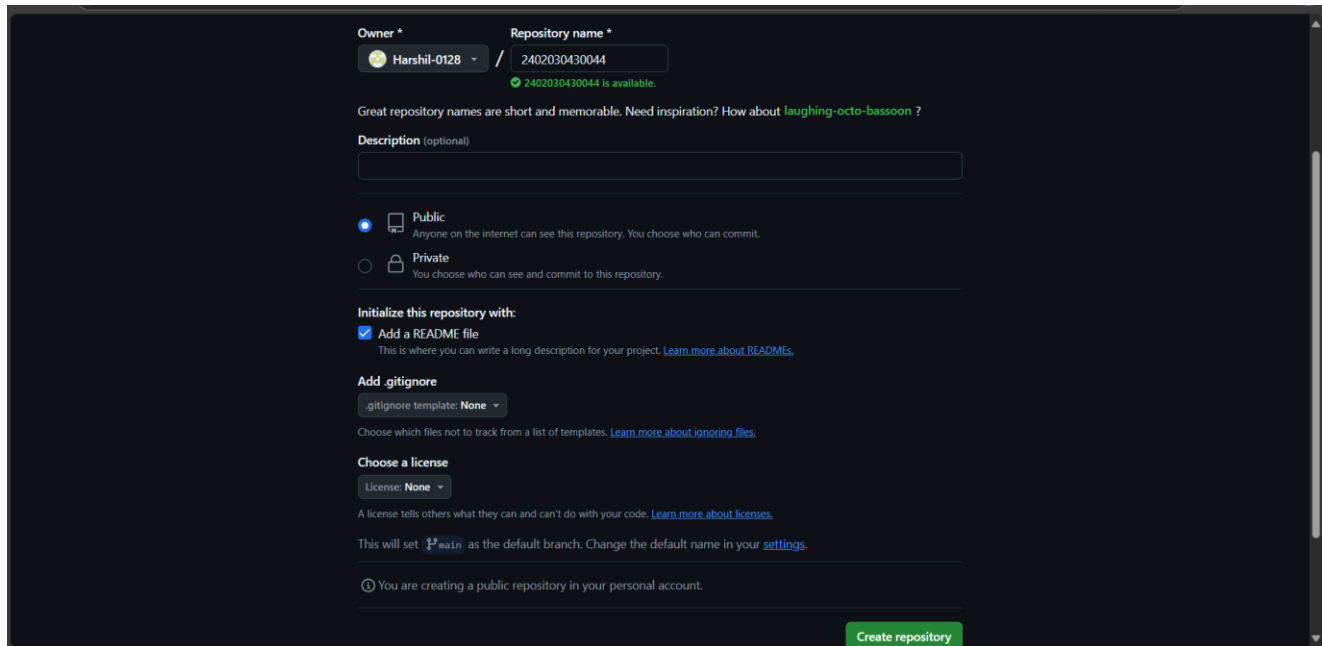

Step 1 - Click on New button to create a new repository

Step 2 - In the Repository name field, enter your enrollment number

Step 3 - Click "Create repository".

The screenshot shows the 'Create new repository' form on GitHub. The 'Owner' is 'Harshil-0128' and the 'Repository name' is '2402030430044'. A green message indicates '2402030430044 is available.' The 'Description' field is empty. The 'Public' radio button is selected, with the text 'Anyone on the internet can see this repository. You choose who can commit.' The 'Private' option is also visible. Under 'Initialize this repository with:', the 'Add a README file' checkbox is checked. The 'Add .gitignore' section shows '.gitignore template: None'. The 'Choose a license' section shows 'License: None'. A note at the bottom states 'You are creating a public repository in your personal account.' A green 'Create repository' button is at the bottom right.

Owner * / Repository name *

Harshil-0128 / 2402030430044

2402030430044 is available.

Great repository names are short and memorable. Need inspiration? How about [laughing-octo-bassoon](#) ?

Description (optional)

☒ Public
Anyone on the internet can see this repository. You choose who can commit.

☐ Private
You choose who can see and commit to this repository.

Initialize this repository with:

☒ Add a README file
This is where you can write a long description for your project. [Learn more about READMEs.](#)

Add .gitignore

.gitignore template: None

Choose which files not to track from a list of templates. [Learn more about ignoring files.](#)

Choose a license

License: None

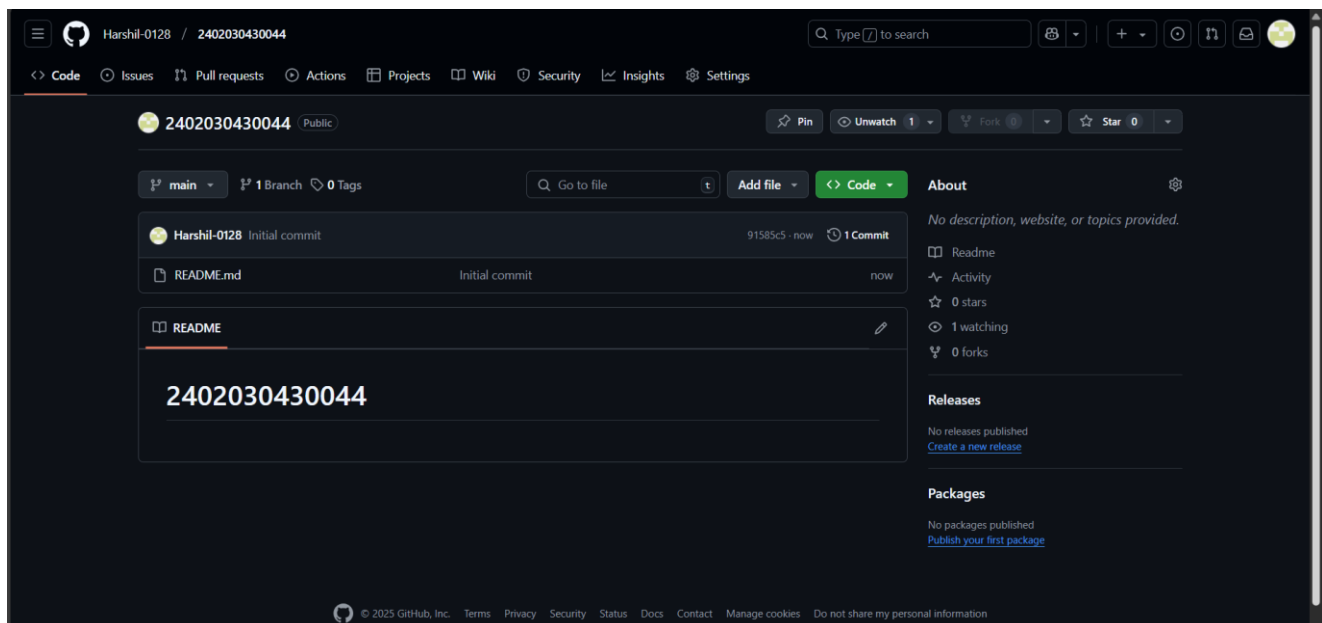

A license tells others what they can and can't do with your code. [Learn more about licenses.](#)

This will set `main` as the default branch. Change the default name in your [settings](#).

You are creating a public repository in your personal account.

Create repository

Step 4 - Click the "Add file" dropdown, select "Create new file"

The screenshot shows the GitHub repository page for '2402030430044'. The repository is public and has 1 branch (main) and 0 tags. The 'Add file' dropdown is open, showing 'Create new file' and 'Upload existing file'. The 'Code' button is also visible. The repository has 1 commit by Harshil-0128, titled 'Initial commit', which includes a file named 'README.md'. The README content is '2402030430044'. The right sidebar shows the 'About' section with no description, website, or topics provided. It also shows 'Releases' and 'Packages' sections, both with no published items. The footer includes the GitHub logo, copyright notice, and links to Terms, Privacy, Security, Status, Docs, Contact, Manage cookies, and Do not share my personal information.

Step 5 - Type the folder name followed by a slash (/) to create the folder structure and click on commit changes.

Step 6 – Assignment 1 folder created

Step 7 – Add the file into the assignment 1 folder

The screenshot displays the GitHub web interface for a repository named '2402030430044_WT' by user 'Harshil-0128'. The 'Code' tab is selected. On the left sidebar, the 'Files' section shows a tree view with a 'main' branch and a folder named 'Assignment_1'. Inside 'Assignment_1', there are two files: 'Go-Green - Eco Friendly Produc...' and 'file1.txt'. The main content area shows the 'Assignment_1' folder selected, displaying a commit history table. The table has three columns: 'Name', 'Last commit message', and 'Last commit date'. The commit history shows three entries, all with the message 'Add files via upload'.

Name	Last commit message	Last commit date
..	Add files via upload	e287172 - 48 minutes ago
Go-Green - Eco Friendly Product.pdf	Add files via upload	48 minutes ago
file1.txt	Add files via upload	7 hours ago
